

Wholesome All Natural  
Dog Biscuits

To: All Northern Biscuit Customers,

Recently there have been peanut butter recalls in the United States due to Salmonella contamination.

Northern Biscuit does not purchase ingredients from the companies involved in the recall. None of our peanut based treats have any connection whatsoever with the Peanut Corporation of America or King Nut.

We want to assure our customers that our food-grade, natural, crunchy peanut butter is obtained from Canadian HACCP compliant food manufacturing facilities. Produced to the highest standards and tested daily during the manufacturing process for Salmonella and several other potential microbial pathogens.

This is in keeping with our own internal food-safety protocols which help ensure a continuing supply of safe, healthy treats from Northern Pet Products, Inc.

Please feel free to contact us at any time.
